

MINERS GO TO WORK
AT LOWER WAGES.THOUSANDS AGAIN TAKE UP
THE PICK.

Big Army Around Pittsburg Once More Delving in the Earth—Some Around Bellaire Will Wait for the Result of the Columbus Conference To-Morrow.

PITTSBURG, June 18.—Fifteen out of twenty miners in this district returned to work this morning.

BELLAIRE, Ohio, June 18.—Nearly twenty-five hundred miners went to work this morning. Others will wait for the Columbus conference.

MARTIN'S FERRY, Ohio, June 18.—Many miners went to work this morning.

MOR DEFIED THE MARSHAL.
The Seventh Regiment of Chicago Sent to Mount Olive, Illinois.

CHICAGO, June 18.—Gov. Altgeld last night ordered out the Seventh regiment (the Hibernian rifles) to assist the United States marshal. Between 400 and 500 men started at 4 a. m. It is 240 miles to Mount Olive and the special, having the right of way, made it in six hours.

SPRINGFIELD, Ill., June 18.—There is no rioting at Mount Olive, so far as Gen. Orendorff is informed, and the call for troops is due entirely to the fact that United Marshal Britton was unable to make arrests of men who were interfering with the trains. The trouble at Mount Olive began last Wednesday, when the striking miners, irritated by the fact that coal was being hauled on the Louisville, Evansville and the Jacksonville Southern railroad, began to interfere with the movement of trains. Their method was in some cases to break open the seals of cars and examine the contents and if any coal was found inside it was dumped out. As the property was in the custody of the court Judge Allen ordered United States Marshal Britton to the scene with deputies and instructed him to arrest any who were found interfering with the operation of the property or in any way trespassing upon it. Marshal Britton upon his arrival made the miners a speech and a meeting was held by the latter, at which it was decided not to interfere. No sooner had the marshal returned, however, than the tactics of the miners were resumed and he went again to Mount Olive Saturday, armed with warrants for a number who were known to be guilty of contempt of court in interfering with the running of trains. He found about 600 congregated. Every attempt to make arrests was effectually blocked by the miners crowding between the few deputies and the men they were after. The marshal had only twelve deputies, and it was hopeless for him to try to carry out the instructions of the court. It was this condition of things that induced the request for military assistance.

ILLINOIS MINERS TO RESUME.
Decision of Conference at Springfield to Be Ratified by the Operators.

SPRINGFIELD, Ill., June 18.—The coal strike in Illinois is at an end. The conference of the miners, which has been in progress here since 10 o'clock Saturday morning, came to a close yesterday afternoon. A scale was agreed upon, and it is believed it will be generally accepted by the operators. Next Wednesday is the date fixed for the resumption of work. Following is the scale:

Peoria and Canton subdistrict, 50 cents per ton gross weight summer, 55 cents winter, 67½ screening in summer, 75 cents in winter, 2,000 pounds to constitute a ton, with a relative price for all places according to prices and conditions of 1893; for loading after machines, 30 cents per ton in summer and 35 cents per ton in winter; Norris, 5 cents above the district price; Springfield, 82½ cents in summer and 90 cents in winter, screened coal; Braidwood, 87½ cents in summer and 95 cents in winter; Streator, 7½ cents summer, 80 cents winter, for screened coal. Bloomington, third vein, 63½ cents gross weight; second vein, 52½ cents gross weight; Colfax, 47½ cents, mine run.

Springfield district, 45 cents, mine run; Colchester, 4½ cents per bushel screened in summer, 5 cents winter.

Danville district (Danville, Glenburn and Fairmount), 60 cents screened, 48 cents mine run; Grape Creek, 60 cents screened, 30 per cent differential on mine run; Pana, 40 cents mine run, miners to furnish their own supplies; all mines on the Big Four and south of there, except Pana, 40 cents mine run except veins of five feet and under, these veins to receive 5 cents above district price.

MANY MINERS GO TO WORK TO-DAY.
Troops and Strikers at Frostburg, Pa., Declare a Truce Over Sunday.

FROSTBURG, Pa., June 18.—The strikers and militia declared an armistice yesterday and sweltered respectively in their homes and tents. Indications point to a heavy increase in the number of men going to work at the Hoffman mine to-day, and so far as the Consolidation company is concerned the strike is practically broken except at the Ocean mine. At Lonaconing the few men who were working have gone out.

SCRANTON, Pa., June 18.—The orders have been issued for the miners of the

Delaware and Hudson Canal company to resume work at full time for an indefinite period. The order affects 10,000 men at the mines and will greatly help the railroad employees. It is said that the coal trade will be heavy for some time to come.

ALTOONA, Pa., June 18.—All the operators here received notice to attend a conference to be held in Philadelphia to-day. Those who have conceded the compromise price are at a loss to account for reason for the conference, but all will attend. The companies at South Fork and one at Gallatin have posted notice to their miners that the present rate will go into effect at once and that hereafter 45 cents a net ton will be paid for mining. The miners held a meeting at South Fork yesterday afternoon and decided to return Monday or Tuesday.

Miners at Brazil, Ind., Want Work
BRAZIL, Ind., June 18.—The decision of the miners in conference at Terre Haute Saturday has created much dissatisfaction among the strikers in this city. When the report was received by a crowd of miners who had congregated around the telegraph office they bitterly censured the action of the meeting, and vowed they would return to work if they had to carry shot guns to defend themselves with. A miners' meeting will be held here this week by the block coal miners to decide whether to return to work in a body or not. At Harmony, Knightsville, Centerville and this city at meetings held Friday the strikers voted to return to work, while at Cardonia, Carbon, Coxville and Caseyville the majority voted to continue the strike. Excitement is great here and serious trouble is anticipated in case part of the men return to work regardless of the decision rendered at Terre Haute. The operators are silent and as yet have not agreed to pay the Columbus scale.

Ohio Troops Not Yet Called In.
COLUMBUS, Ohio, June 18.—Adj. Gen. Howe, who has been in command of the militia in eastern Ohio, held a consultation last evening with Gov. McKinley, relative to the withdrawal of the troops. He had been in consultation with the colonels in command, and also consulted the sheriffs of the several counties where trouble has occurred. The result of the conference was that the military now in the field in Tuscarawas, Stark, and Cornell counties will remain, there being a regiment in each county with batteries and galling guns. The governor and attorney-general believe, from the present outlook, there will be no occasion for keeping the troops in the field later than Tuesday.

Massillon Miners in Angry Mood.
MASSILLON, Ohio, June 18.—The date set by President John McBride for the general resumption of mining will find the men in his home district still on strike, contending against the Columbus settlement, and fighting a local differential issue that has been pending since Feb. 10. There is no indication that the 2,000 Massillon miners are in a mood to abate their claims in any respect. Cameron Miller of the United Mine Workers' executive board arrived home last night too late to influence the Massillon district convention. He says the strike is virtually over, and that the men are rapidly falling into line. He has been devoting himself to the Western Pennsylvania field, where he expects 15,000 out of a total of 20,000 men to begin work to-day.

To Strike in Sympathy in Kansas.
KANSAS CITY, Mo., June 18.—District President McGregor is authority for the statement that 10,000 miners in Kansas will go on a sympathetic strike next Thursday. Mr. McGregor read a telegram from Pittsburg, Kan., late last night, where the miners have been holding a conference, advising him that this was their decision. The strike is to force a settlement in Missouri and the Indian territory.

Star Speakers Unable to Be Present.
BLOOMINGTON, Ill., June 18.—A large gathering of railway men assembled here yesterday afternoon, but Eugene Debs, national president of the American Railway union, and G. W. Howard, vice-president, who were announced to speak, were unable to be present. Addresses were made by V. B. Ray, quartermaster of the American Railway union, and W. E. Burns and L. W. Rogers from the Chicago convention.

THE MINE HORROR.

Engineer Kohout Tells How the 232 Men Lost Their Lives at Troppau.

TROPPAU, June 18.—The total number of deaths resulting from the explosion that occurred in a mine near here a few days ago is 232. Engineer Kohout, the sole survivor of the party that went to attempt the rescue of the miners, said in an interview that he heard a fearful explosion Thursday night. He formed a party and descended the shaft into the mine. He entered the fourth level, where they found the bodies of twenty-four miners and several dead horses lying at the entrance. Herr Kohout returned to the main shaft and signaled for assistance. Suddenly another terrible explosion occurred, hurling the wagons together and throwing Herr Kohout to the ground. A second party descended into the mine and bravely entered the galleries. They found all the first rescue party dead except Kohout. The rescuers continued their explorations, and, although they were badly burned, recovered some bodies, most of which were unrecognizable.

SORRY CLASS DAY
FOR BELOIT BOYS.

MEMORIAL EXERCISES REPLACE THE USUAL FUN.

Observance in Honor of the Two Young Men Who Were Drowned, Are Held This Morning—Lake Lauderdale Has Not Yet Given Up Its Dead.

BELOIT, June 18.—Despite the hard rain that prevailed all the afternoon, the opening exercises of the Beloit college commencement were well attended. At 4 o'clock President E. D. Eaton delivered the baccalaureate sermon to an audience that filled the college chapel to overflowing. His address was an exceptionally strong and interesting one.

At 7:30 the chapel was again crowded to listen to the address by Rev. J. W. White of Menominee, before the Christian association. Mr. White proved himself an able thinker and his talk showed unusual strong literary ability. This morning the class day exercises were to have been held, but a memorial service took place in its stead at 10:30. The exercises were in commemoration of the sad death by drowning recently of Messrs. Hay and Huseman, members of the senior class. All efforts to secure the bodies of these two young men from Lake Lauderdale have been unavailing, although the work still goes on.

ELABORATE PLAN OF ANARCHISTS
Dynamite for the National Capital—Exposure of a Plot To Destroy.

WASHINGTON, June 18.—The Post publishes an exposure of a plot which had for its object the destruction of the capitol and perhaps other buildings. According to the story the plot was formed at the time Coney's army was on the march. The Post says: "The prime mover in the anarchistic plot, that is, the Washington end of it, was Honore Jaxon. He came from Chicago, and is still in the city. He is a professional Indian. In Chicago he has been a disturber for years. At the time of the Haymarket riot he narrowly escaped being arrested, and was shadowed by the detectives for a long time after that most memorable affair. Jaxon is a half-breed of unknown tribal origin. He was one of Louis Riel's lieutenants in the Canadian rebellion some years ago. The man has done some little newspaper work, and has frequently passed himself off as a reporter on the Chicago Times."

"After Jaxon's arrival here letters were received by civil service officers informing them that the anarchists were forming with Jaxon as the leading spirit. The informant in the case has kept in touch with the conspirators and gave the names of those engaged in the plot, together with other facts to the police. Jaxon's headquarters in this city was at the residence of a Frenchman named Savant, known to be a very eccentric man. The conspirators were constantly experimenting with explosives, and the officers felt as though they were losing their grasp of the situation. There was danger that the climax might come at any time and great alarm was felt by civil officers, including the speaker of the house, Secretary Carlisle and other treasury people. The police discovered the formula for making the explosives which the conspirators proposed to use. Several chemicals were used, and the result is a high explosive of a new and dangerous kind. The formula was taken to a well-known chemist, who made up his sample in his laboratory and placed it on a windowsill in the sun. In a few moments there was an explosion which nearly wrecked the room, but which was accompanied by most nauseating and poisonous smoke. "It is said to be the idea of the conspirators to place their mixture in the capitol building that in the course of an hour the sun would strike it and cause an explosion which would be terribly disastrous. The original intention was to make the arrival of Frye's army in Washington the occasion for the demonstration."

THREATEN THE AMERICANS.

San Salvadorians Vexed Because Ezeta Was Not Surrendered to Guiterrez.

SAN SALVADOR, June 18.—The refusal of the commander of the Bennington to surrender Antonio Ezeta and other refugees to Guiterrez has aroused intense feeling against the United States, which is taking the form of threats against Americans here. Clouds already overspread the new government. In a street fight at San-Vincente fourteen persons were killed. Gen. Concha, arrested at La Libertad for attacking Col. Mora, the commandant at that place, will be tried by court martial and undoubtedly be sentenced to death.

Timely Rain Saves Crops.

ANNA, Ill., June 18.—A copious rain which fell yesterday broke the drought, which threatened much damage through this fruit and vegetable belt. The melon and sweet potato crop had already suffered considerably. The rain will enlarge the yield of raspberries and blackberries, which are now being gathered. Corn is much benefited.

BOY'S DEATH CAME
BY HIS OWN HAND.

BELOIT, Wis., June 18.—Arthur Miller, a young son of Mr. Miller, of Shirland, shot himself through the heart while playing with a revolver yesterday. His father let him take the revolver but supposed it was not loaded.

Big Emery Wheel Killed a Man.

SHANGHAI, China, June 18.—Nine native converts at the Catholic mission Yenchau Fu, in Shang Tung, have been massacred by a pagan mob. The local officials refused either protection or punishment.

Horseman Killed by Lightning.

KIRKSVILLE, Mo., June 18.—William Anderson was killed yesterday by lightning at Novinger, this county. He was on horseback at the time and the animal was also killed.

TARIFF BILL IS SOON TO PASS

Next Saturday May See the End of It—Senator Harris Is Confident.

WASHINGTON, June 18.—Senator Harris said when the senate adjourned on Saturday that the tariff bill would pass the senate by next Saturday, and when Senator Aldrich, the leader of the opposition to the bill, was asked what he thought of Mr. Harris' prediction he expressed the opinion if it should not be entirely realized it would come near it. "I think," he said, "that by next Saturday night we shall be on the far end of the bill." Both declined to state whether there had been any negotiations for an agreement as to the time for the final vote between the leaders on the respective sides of the chamber. It is known, however, the situation has been canvassed more or less in the numerous conferences which have taken place between Senators Cockrell, Harris, and Jones on the democratic side, and Senators Aldrich and Allison on the republican. It is also known that they have not agreed on a time, because of the difficulty on the part of the republicans of determining what time might be required for speeches by senators on that side. They have, however, canvassed the question sufficiently to feel assured there will be comparatively few more long speeches.

There are, however, some republican senators who do not exactly agree with the joint prediction of Senators Harris and Aldrich, and who say that while they do not consider the time for the final passage of the bill is far distant they think considerable time will be required for consideration of the income tax and for the votes on various features of the bill, as well as probably some speeches when the bill shall be reported from the committee of the whole. When it is considered it is probable the income tax can be disposed of in less than two or three days at the outside. There is also a probability that Senator Lodge's amendment for retaliation upon England will be revived by the silver republicans, which would have effect of at least briefly reopening the silver question in connection with the tariff. The only tariff schedules which have not been disposed of are: Silks, which are now under consideration, papers, and sundries. These, with the free list, the income tax and the administrative features of the bill complete the measure. The wool question will be revived when the free wool item shall be reached in the free list, and while the contest will not be so prolonged as it was when the subject was taken up on the wool schedule it promises to be quite animated for a short time.

It still seems strongly probable the administrative part of the bill will be withdrawn and the present administrative law allowed to stand. Senator Jones said that he favored this course for the purpose of expediting the passage of the bill, and his judgment will most likely be allowed by his democratic colleagues to control their course.

MEASURES BEFORE THE HOUSE.

Anti-Option and Deficiency Bills Are Struggling for Precedence.

WASHINGTON, June 18.—The anti-option bill will be pressed to the front in the house of representatives and Mr. Hatch, its author, is confident that he can secure consideration for the measure to-day and a vote on it about Wednesday. He will yield to-day for several minor measures which

may be brought up under suspension of the rules, but will insist that anti-option is to be the first discussion of any length. The deficiency appropriation bill, which is the last of the appropriation bills, will be reported by the committee to-day. Unusual interest attaches to the deficiency bill, owing to the position of Representative Breckinridge of Kentucky as chairman of the deficiency subcommittee. He has been present at the meetings of the committee during the last week and has evinced an interest in the bill and a desire to take charge of it. A leading member of the committee said there would certainly be no clash on this personal aspect of the bill, but he added that no definite conclusion had been reached as to who would have charge of the measure. The New Mexico statehood bill and the Cooper bill to tax greenbacks are also struggling for an early meeting.

UNCLE SAM'S BIG SUIT.

Will Proceed Against Three Railways for \$171,006,537.

WASHINGTON, June 18.—The attorney-general has now definitely determined to enter suit against the Union Pacific railroad and the Kansas Pacific railroad jointly, and the Central Pacific railroad, to recover the amount of bonds which are guaranteed by the government together with accrued interest at 6 per cent for thirty years, in other words 180 per cent interest. The total amount for the three roads, including interest, is \$171,006,537. The method of procedure of the government will be to endeavor to prove that the original stockholders of the road have been guilty of breach of trust. The contracts with the government required that a certain percentage of the earnings of the roads should be set aside for a sinking fund to be applied to the payment of the debt of the government, which has not been done. If the courts sustain the position taken by the government attorney the misapplied funds will be recoverable wherever they may be found. This will make the ramifications of the cases more intricate than in any cases of like nature in the history of the country. The time of filing the suits depends so much upon the time that will be required for the government to supply itself with the required sources of testimony.

Oleomargarine Law Violations.

WASHINGTON, June 18.—The treasury officials are in almost daily receipt of information showing that the law of Aug. 2, 1886, as to the sale of oleomargarine, is being violated by dealers in all parts of the country. These violations consist principally in selling oleomargarine at retail in packages not properly marked and branded and in offering it for sale after it had been removed from the original stamped packages. Steps are being taken by the officials to punish every violation of this act that they may discover.

TO LYNCH A POLICEMAN.

Mob at Indianapolis Makes an Effort to Avenge Unsuccessful Shooting.

INDIANAPOLIS, Ind., June 18.—Patrolman King of the city police force shot and fatally wounded Jerry O'Neil, a popular Irishman living in the west end, last evening at 6 o'clock. The officer had become engaged in an altercation with a man and attempted to arrest him. It is said that there was no occasion for the arrest, and a crowd surrounded the officer and his prisoner. O'Neil ran up and struck King in the face, when the policeman drew his revolver and shot him down. A crowd gathered around the officer and an attempt was made to lynch him. He made a running fight for his life, but would have been overpowered had he not been rescued by a platoon of police. A policeman shot another man dead a few days ago without provocation, and public opinion has been greatly aroused in consequence. A second shooting which, it is claimed, was unprovoked occasioned the riot. The mob numbered not less than 1,000 persons and it was three hours before order could be restored.

Collision With an Iceberg.

GLASGOW, June 18.—The Anchor Line steamer Ethiopia, Capt. Wilson, from New York, June 2, reported yesterday as having been damaged in collision with an iceberg, has arrived here. It has a large hole in its bow. The accident occurred the afternoon of June 6 during a heavy fog. The steamer struck the berg with great force and the water began to pour in through the hole made in its bow. Nobody was injured and the cargo sustained little damage. The action of the officers and crew of the Ethiopia at the time of the collision and afterwards was highly praised by the passengers, and a purse of \$34 was subscribed by them to be divided among the crew.

He Said He Was a Farmer.

BREWSTER, N. Y., June 18.—At the games of the Brewsters Athletic club the contestants were the young farmers of the neighboring towns. The games were just about to be started, when a tall, smooth-shaven man inquired of the starter if he could take part. He said he worked for a farmer near one of the neighboring towns, and he looked the part, wearing blue overalls and a soft hat and appearing quite innocent. He won every event, from the half-mile race to the three-mile race, and it was not known till after he had walked away with the prizes that he was Policeman Kelly, the old-time athlete of New York.

Change in Boston Federal Offices.

BOSTON, Mass., June 18.—According to a Washington dispatch printed in a morning paper Collector Warren has been ordered to remove sixteen government employees, to increase the salaries of some and reduce the pay of others. LEAN limbed trotters and pacers will score for the word at the Driving Park to-morrow. They are all after that \$10,000 that the association has put up for them to get.

Every penny of it is available in these good hard democratic times. Horsemen feel them the same as anybody else and there's all after the cash.

That means hot races. Though the rain poured down Saturday and Sunday, it has not injured the prospect for a good track. If Tuesday is born under a warm sun all will be well. The Janesville track is built upon the best of soil and it takes a good deal of water to injure it. The drainage is good and the floods soon run off and then it dries up quickly.

Every stall at the park is tenanted by a flyer. In fact the association are pressed for stalls and have had to engage some down town. Never did a finer lot of animals come here than are now quartered at the track. That is natural. Janesville track is as fine as there is and the horsemen all figure on coming here for the earlier training and races of their horses on a good track tells when they get into the grand circuit.

Gives the Town a Name. Janesville gets a good deal of advertising through the race meetings and when the horse papers speak of Janesville it is as plain "Janesville," not "Janesville, Wisconsin," they all know what Janesville it is. The Sunday Inter-Ocean published the list of entries in full yesterday and prefaced them with the statement "that the most important meeting in the West and within reach of Chicago is at Janesville. All the stables that were at the Freeport meeting have entries there and fast time is sure to be made on Henry McKinney's mile track."

The events set for tomorrow's races are the 50 class trotting with fifteen entries as follows:

No. 2-2:50 trotting—Purse, \$500. Jenny Belle, b m by Jerry Wilkes, W. G. Wilson, Minneapolis, Minn. May Ross, b m by Anters, C. A. Niles, Oshkosh, Wis. Sister Ethel, b m by Jerry Bird, M. E. Another first day feature will be an exhibition by the highly educated trained horse, Niobe St. Cloud, which is said to be a novel and interesting entertainment. Niobe St. Cloud is driven by his owner, first with lines, then without lines, but with a whip. Then the driver dispenses with both whip and reins and drives the horse by simple motion of the hands. The exhibition is really quite wonderful and that especially because women and children get a more exalted opinion of man's best friend.

JOHN KELLY GETS REVENGE. He Wins With W. W. P. When Flying Jib Is Distanced.

John Kelly probably smiled grimly when he drove the phenomenal pacer, W. W. P. under the wire winner at Denver Saturday in the free for all pacing class.

The reason was obvious. One hundred yards behind the party there fluttered a flag.

Behind the flag was Flying Jib, the wonder who holds a half interest in the world's championship for pacing a mile in 2:04.

Last year they said Kelly couldn't drive the Jib because the big pacer

got distanced once in awhile. Now it is demonstrated that if Kelly couldn't neither can Andy McDowell, for it was he who sat behind the son of Algona Saturday. The race was begun Friday when the Jib won the first heat in a driving hail storm. Two inches of hail stones lay on the track and the time was very slow for free for all pacers—2:21. W. W. P. was in third place and in that form the race went over. When they came out Saturday to decide the matter Online won the first heat with W. W. P. second in 12. Then W. W. P. stepped off and won the next three and the race.

His best hold is his endurance and after scoring for a long enough time to tire out the other ones he is better able to make a fast mile than ever. If you are interested in horses, keep an eye on W. W. P. this season. He's liable to be a sensation before the frost nips the russet apples. It will be remembered that Kelly was the driver of Flying Jib and the Salisbury horses last season, but left him to enter the employ of Dubois Brothers, of Denver. Andy McDowell, who has won fame as a horseman, succeeded him.

SWELL TEA GIVEN AT THE TRACK. May Ross Tells of the Society Event of Last Night.

It was midnight. All was dark. No longer the cry of "craps!" "One less!" and "seven!" startled the birds. No pop bottles were opened; no sound was heard.

A rustle came from May Ross' tidy room. "Oh girls!" she said.

"We're here," came a chorus of voices.

"I want to tell you what a good time I had last night. You see Minnie Wilkes, Bell Wilkes, Cecil Wilkes, Princess Wilkes (you all know the Wilkes girls), Flora Milo, Alice Phallmont, Miss Sydney, Bella Bells, Alice Director, Vera Capell, Minnie Monroe, Alice Berlew, Maud Wright, Gladys Sprague, Jennie Tombs, Maggie Sherman, Kate Phallmont, Carrie Cuard, Nettie Jefferson, Bell Noble, Nansie Hans, Nancy Wilson, Nellie Bly all attended the Princess Enla's tea.

Well, who do you think we met? You can't guess? Why, the first man we saw was Judge Walker (you know the judge; he's the fellow that helps that man who is keeping company with his Sister Ethel, in making a living) and they say a little more. They like Myron because he's good to them, you know." He was talking to Dr. Cronin (you know people think he died of some kidney trouble, but it isn't so; I tell you this, but you mustn't mention it to a soul.) Then that Michigan Prince (he isn't a Michigan fellow at all. He comes from Minneapolis and his mother's father was a regular Night Hawk. Perhaps that's why he stays up so late) came too and I heard General Doe tell Capple Woodbine, (you all know Capple of course) that "Gene Wilton, he's that slick young boarder of McHenry's that Ben Gaines, Harry Brown, Robert Koch and Tod Crook played poker all last night at Kansas Jack's resort on the other street."

Flight Was Brewing. "I don't believe it and Marco Pole, you know Marco, he has that lovely black hair and is related on his mother's side to the Wilkes girls, said "Red" Gamaleon was going to whip General D. a within an inch of his life. ("Red" comes from Chicago you know, and he'll do just as he says he will) Dr. B. will be there though, of course and if the General gets hurt much he will fall into good hands. Harry Pennington said that he "had three kings last night, and they cost him a lot of money" and then he looked embarrassed when he saw that I heard him. I asked Ben Lambert what Harry meant and he said that Harry took King Swigert, King William L. and King Princeps out for a time when they didn't have any money. G. W. Howe, you know he's some relation to King William L., laughed too, but of course Ben wouldn't lie to me. Tommy Russell and Robert Elsmere went out and smoked with Tom Miller, Tom comes from Nebraska you know and there must be something wrong with him, for his father's name is Williams) and I think they were mean. That fellow from Illinois, they call him Ranger H. (I think he's from the west somewhere, judging from his name, and they say his father is a regular Typhoon when he got started) said that—

"Shut up you horses and let us men sleep even if you don't want to!" came a voice from one of the stalls and silence again brooded deep.

"THAT's one of them rheumatic tires," said one countryman knowingly as he and a companion inspected a "bike" this morning.

THOMAS PHILLIPS, the score card man, will not smoke his pipe in the shadow of the judge's stand this season. W. M. Flynn has the card business.

MARK DIXON, the well known horseman was found dead in his room in the Atlas hotel in Milwaukee, Sunday morning. He was to have attended the Janesville meeting. The remains were taken to Darien for burial today.

"ONE man held Maud Wright's legs and the other bandaged them," declared one boy to another at the track this afternoon. "Land o'Mercy!" gasped an old lady as a horrified expression spread over her face and she hastened for the grand stand. The boys told the truth. They had seen the stable boys fixing up C. M. Clough's bay mare.

It is quite fitting that inasmuch as John Bonfield after his retirement from the Chicago police force was made chief of police at the Janesville fair grounds, that John Brown after his retirement from the Janesville police force, should be made chief of police at the Janesville fair grounds. So it is. Brown commands the hickory wielders, and as in Bonfield's case a better man couldn't be gotten.

BARBERS WENT TO BELOIT. Too Much Rain to Make the Tonsorial Contest Possible.

The Janesville Barbers' Base Ball nine went to Beloit yesterday to play the barbers of the Line City, nine cents and a fish hook a side. Then the rain came down and the game was off. They go down again next Sunday, June 24, and then there will be blood on the moon and the ball will probably be lathered all over the diamond.

TRAMPS ROB A FREIGHT TRAIN. Police Catch a Tough Gang and They Say Have the Guilty Ones.

While a special freight train was standing in the St. Paul yards in Beloit last night, tramps entered the caboose while the trainmen were busy switching and stole two suits of clothes and \$10 in money. The police were notified and corralled a tough gang and believe they have the thieves.

Artist With a Hot Poker. Heimstreet's window attracted a good deal of attention today, mainly from a picture on exhibition, an oil painting of an interior and very fine.

The greatest attraction, however, is the frame which is beautifully ornamented with vines, leaves and birds, all the work being done with a hot poker. The work is what is called the "pyrography" or burnt wood etching. Both picture and frame are the work of Mrs. A. E. Parmley, of Evansville, who has studied under some of the best teachers in this county. The work is beautiful and will bear close inspection. It will be on exhibition several days.

Considerable interest is manifested in the forthcoming concert picnic to be given by the Concordia society at Crystal park next Sunday. Smith's orchestra will play from 11 o'clock until late in the afternoon. There will be chorus singing, games of various kinds and a shoot for a red, white and blue sheep. Both the Columbia and Enterprise will run every half hour.

Big Time at Mayflower Park. All the boats will run and there will be speaker, music, games of all kinds and dancing in the evening with Smith's full orchestra to furnish the music. You cannot afford to miss it if you want a big time.

Janesville Carts Go to Scotland. A large wooden, iron bound crate containing four road carts from the Janesville Carriage Works, marked "W. Hunter, Newton Stewart, Scotland, via New York to Glasgow, care of Austin Baldwin & Co., agents, N. Y." attracted considerable attention as it was carted through the streets from the company's works to the depot.

LIGHTNING BURNED FIRE ALARM BOXES.

BOLT DISABLED THE WEST SIDE CIRCUIT.

Mechanism Made Useless by the Discharge of Electricity—Expert E. B. Chandler, of the Gamewell Fire Alarm Company, Reached the City Just in Time.

The storm Saturday evening disabled the fire alarm in the First ward, rendering all the boxes in that circuit useless until 7 o'clock Sunday morning. The lightning struck and melted the wire at Highland near Madison avenue, and passed through all the boxes in that circuit and also the tower bell striking the machinery. One box, 16, was considerably damaged, while the damage in others was only the burning of ground connections. E. B. Chandler, of the Gamewell Fire Alarm company, was in the city, and lent his aid in repairing damages, so that all the boxes were put in working order in the shortest possible time, Electrician Kline working all night.

The electric car service was also disabled for a short time, the lightning burning the fuses at the power house.

An immense amount of good was done to crops by the rain Saturday night and Sunday. The storm was general through this part of the state.

BOY BATHERS GIVEN WARNING. Mayor Thoroughgood Makes Suggestion Against Indecent Exposure.

The mayor's attention having been called to the many acts of lewdness perpetrated within the city limits, especially the bathing in the river, I therefore append the amended ordinance, relating to this matter, and will instruct the police to keep strict watch and arrest all persons who improperly expose themselves while bathing or otherwise transgress the provisions of the ordinance. The mayor hopes this warning will be sufficient to put a stop to the indecencies practiced by many while bathing in the river. He will consider it a favor if the steamboat captain or other individuals will furnish information concerning any breach. Section 4 of an ordinance entitled "an ordinance to prevent disorderly practices" as amended reads:

"No person shall frequent or resort to any house of ill-fame within said city for the purpose of prostitution or lewdness, or do any lewd or lascivious or obscene act in any street or public place, or within the sight of any person, or use any profane or obscene language in any street or public place, or within hearing of any person."

JOHN THOROUGHGOOD, Mayor. Janesville, Wis., June 15, 1894.

Attention A. O. H. The twelfth anniversary of the order in this city will be duly celebrated tomorrow at Mayflower park, and all are cordially invited. Able and eminent speakers will be there. The first boat will leave the dock at 9 a. m. Mayflower, Columbia and Enterprise will leave the dock half hourly thereafter. Irish jigs, reels and hornpipes and athletic sports of all kinds will be a feature of the day. Competent judges will be selected to award the many prizes to the victors. Ho! to the Irish picnic. [Signed]—J. P. Heffernan, John Conley, John Gleason, M. J. Dougherty, James Riley, Thomas Boyce. Committee.

Born, Not Made

Weak by imprudence, are many stomachs. Fatty people have invariably weak digestion. The robust as a rule eat heartily and assimilate their food. A naturally weak stomach, or one that has become, although not so originally, derives needful aid from this thorough stomachic, Hostetter's Stomach Bitters. The restoration of vigor to the delicate is the prompt effect of a resource to this professionally sanctioned and universally esteemed promoter of health. Nervousness—a symptom of chronic indigestion—is overcome by it. So are liver complaint and constipation. Incipient rheumatism and kidney trouble it defeats thoroughly, and it constitutes an efficient defense against malaria. But in order that the full benefit derivable from its use should be available, it should not be used in a haphazard way, but continually. The same suggestion holds good of all standard remedies.

SHE WEARS A DOG COLLAR.

The French Girl Likes It, but Miss America Prefers a Necklace.

The wide liberty which prevails in fashions this year seems to have resulted in upsetting the generally accepted theories in regard to summer and winter fabrics. Thick and thin goods are combined in the same costume, while velvet, fur and heavy silk are used for gowns intended for warm weather wear. It would be difficult to guess what the next new development will be, for all possible ground seems to be completely covered already. Perhaps when the present riot of color and varying form has reached a climax there will be a revulsion of feeling and a return to mode shades and the slim severity of skirts, in which we cannot stoop to pick anything up, and sleeves that will not allow any bending of the arm. It did not take a great deal of cloth to make gowns in that fashion, and two such might be made out of one of the present style.

Reception and ball dresses are less interesting topics now than they were a few months ago and will be a few months

SILK AND VELVET EVENING GOWN.

hence. Not many novelties in that line are displayed as yet, designers preferring to save their ideas until the arrival of the season when there is a large demand for them. Several pretty arrangements of lace, flowers and passementerie are shown for the décollete bodice, and sleeves or some sort of drapery over the top of the arm is always seen. It may be only the thin bertha that surrounds the upper edge of the corsage, or perhaps separate lace epaulets or wide bretelles, but in no case is a plain, narrow strap deemed sufficient.

There is a fancy in Paris for wearing a wide velvet dog collar with a low cut bodice, the collar, often a wrinkled one, closing under a velvet choker or some sort of decorative buckle. This particular idea does not seem to have met with the approval of American women, who prefer a necklace, if they wear any ornament at all about the throat.

The sketch given shows an evening gown of white peau de soie, white embroidered net and coral pink velvet. The body of the skirt is of peau de soie, the lower part being plainly covered with net. The upper edge of which is cut in large points and outlined with a band of sable fur. The pointed corsage is of velvet crossed over the bust, and wide bretelles of peau de soie covered with net and bordered with fur fall over the shoulders. The coral velvet dog collar is secured by a jeweled buckle.

FOR THE LITTLE PEOPLE.

Some New Things For the Children of America to Wear.

Fashions for children do not change so rapidly nor so completely as those for grown persons. Freedom of movement and health always enter into plans for the construction of garments for little people, which are therefore restricted in their varieties in a way to which grownup styles, not hampered by such considerations, are not liable.

Little English girls still wear the conventional plain frock of holland or cashmere, with a full skirt and bodice gathered into a unifying belt and short sleeves, all the year round, that leave their poor little arms to be roughened or turned blue by cold or tanned by the summer sun—when there is any. This is mentioned only as an extreme example of the slow change of children's fashions and is not by any means recommended as a pattern to be followed.

CHILD'S COAT.

by American parents. The short sleeves would be rather too barbarous for our winters, at least in the larger part of the country, besides spoiling the whiteness of the future young lady's arms, a matter to be thought of in connection with her probable ball dresses.

Gowns and coats mounted on a yoke are the most practical of any style of dress for young children. Such garments are comfortable and easily washed, and as they are also quite in the mode there is no reasonable fault to be found with them. Sheer lace trimmed lawns, dotted muslins and flowered nainsooks are materials more in vogue this summer than the elaborate all over embroideries that have been so popular for the last few years. White nun's veiling and china silk are also employed, and both are said to wash as well as cambric. The close Dutch caps so long worn have given way generally to sunbonnets.

An illustration is given of a child's coat of fine white woolen stuff. It is shirred back and front to form a yoke and has a plain cape trimmed with two white ribbon ruchings. The cuffs of the full sleeves are edged with the same decoration, and the bonnet is similarly trimmed.

WILL BE GLAD TO BE BEATEN.

A Beloit man wrote to one of his Chicago friends, a life-long democrat, the other day and asked how he felt politically, in these days of democratic free soup houses and general business prostration. The Chicagoan's frank response is so good a statement of the attitude of respectable democrats this year that we publish it in full:

"CHICAGO, ILL., JUNE 15, '94, DEAR

—: Politically I am unhappy.

It hurts like the devil to have to confess it to such a rabid republican as you are, but I want to be honest if it does make me cut a fool. I believe in the principles of the democratic party, and as David B. Hill says, 'I am a democrat,' but I no longer believe in the democratic party as a party, and I feel as much worse about the present situation of that party than you do as a man would feel over a disgrace in his own family instead of his neighbor's.

"There are more brains, ability and respectability in the republican party. I have always conceded that. I shall welcome the republican ascendancy and believe that a majority of the decent democrats feel that way, at least all of my democratic friends do. I respect Cleveland and pity him. I look upon Hill as a blatherskite and a demagogue, but between the southern influences in the democratic party and the northern demagogues the party is in a bad way. I am ready to believe that its day of usefulness have passed. Such men as Henry Watterson and other broad, honest men in the democratic party can get up a platform of principles that I endorse and believe in, but I am commencing to feel that the democratic party as a party is not a party of principle. D—n them! Yours truly

STABILITY IN TARIFF LEGISLATION

There is some truth in the remark of the president of the New York Wholesale Grocers' association that "almost any system of tariff that would be permanent and continuous for at least a decade would be better than the most perfect system without a guarantee of permanency." The same man said also on the same occasion, which was a meeting of business men in the metropolis, that "it was a very unfortunate day for our great country when the principal issue between the two parties became that of tariff for protection on the one hand and that of tariff for revenue only on the other," and there may be a gleam of reason in this declaration also. A little more stability and a little less partisanship in tariff legislation would be a good thing for the country at all times, and especially at the present date.

Never before in the history of the senate has any one man been given the extraordinary power that has been wielded by Mr. Jones, of Arkansas. It looks as though the democrats were preparing to put Jones forward as a scapegoat.

A straw showing unmistakably the trend of public opinion is the slugging in concert halls in democratic New York of topical songs abusing Mr. Cleveland and the democratic congress. The concert hall singer doesn't dare to go against public opinion.

Because of his moral deficiency, Colonel Breckenridge, of Kentucky, will not be allowed to take charge of the general deficiency bill in the house, as his position on the appropriation committee should give him the right to do.

That tiger hunt in the jungles of Manhattan differs from all its predecessors during the last dozen years in

that it is out for skins, with hunters who know how to get them.

Every republican of prominence has been a supporter of bimetalism from the birth of the party, recognizing that to be the only true theory of international finance.

Senator Gray is reported to be sick of the sugar trust investigation. Nothing strange about that. The testimony taken has been sufficient to nauseate any honest man.

In view of recent developments it would seem that the scepter of democratic authority had passed from Czar Cleveland to Czar Havemeyer.

When Secretary Carlisle retires to make room for a republican financier the sugar trust ought to give him a job.

The fool who upsets the boat has begun his usual summer outings. As usual death is his side partner.

Every election held goes the same way. Democracy is no longer traveling on the same train with success.

AS VIEWED BY JERE MURPHY.

It is plain that none of the democratic United Senators are long on wool.

It would be a sad blow to the Chicago lawyers if Assassin Prendergast should inadvertently be exposed to the small pox.

The vote on the wool schedule in the senate indicates that the wool growers of the country are above bribery in their business.

If the Milwaukee Journal sincerely supports any republican candidate for governor, as it threatens to do, it will be evident enough to the public that some of his rivals are furnishing The Journal with the necessary insult.—Madison Journal.

SWALLOWED POISON
INSTEAD OF LIQUOR.W. A. BROWN, OF THIS CITY,
DEAD IN CHICAGO.

Tried To Buy Whisky in a Drug-store, and When He Was Refused, Took Down One of the Bottles and Drank Deeply—His Family Live Here.

W. A. Brown, formerly of this city, but now foreman in the woolen mills in Desplaines, near Chicago, died of poison which he took by mistake Saturday night. Brown, who was a good workman and usually steady, went to F. H. Escher's drug store Saturday evening and tried to buy liquor. The only person in the store was a small girl. She had the courage, however, to refuse Brown's demand. Then he brushed the little girl to one side and went to the shelves. The labels on the glass jars meant nothing to him, but he thought he knew whisky well enough to find it. He took down a jar which he thought contained the desired liquor, drank deeply of its contents and went away.

Several hours later Brown was found lying in front of Curtis & Myer's grocery store. He was unconscious and writhing. He seemed to be suffering from acute poisoning. Physicians who were called so diagnosed his condition. The little girl in the drug store could not tell from what jar Brown had drunk. She was so frightened by his actions in the store that she feared to watch him closely. Brown could not be brought to consciousness. Under these circumstances, not knowing the specific poison he had swallowed, the doctors could do no more than apply general antidotal remedies. None of these had effect. Brown never recovered consciousness and died early Sunday morning.

Brown left Janesville only a short time ago. His family still live here.

MAKE A RUSH FOR STRAW HATS.

All the Young Men Are Turning to Cool "Thatches."

These are merry days for the hat-ters. Everybody is in for a new "tile," and since the torrid period opened later than usual the hat-ters who watch the thermometers and the weather glass before drawing their orders on the manufacturers were caught without the assertion they usually have at this season. The hot weather of the month of roses came later than usual this year, and men who have felt the hard times, vowing by this and by that they would not buy a new hat this summer, have given the last year's straw to the old clo'man and invested in a new straw. There is no change in styles this year, except that crowns come a little lower. At Ziegler's they have been selling large numbers of 50-cent straws with ventilation holes in the crown. Many of these hats are sold daily, and when they are out of the store it is difficult to tell them from the \$3 that the man of fashion affects.

MORE LIFE IN LEAF TRADE

Old Goods Find Takers and there is Considerable Movement in '93

According to the Edgerton Reporter the disposition to take hold of the '93 crop seems to be growing, and in the aggregate a good many hundred cases are purchased each week. The prices are low, seldom rising above the six cent mark for wrapper and binder grades, and much of it below that figure. An occasional transaction in old leaf gives a more hopeful view for a revival in business even if the trading does not furnish the profits looked for.

A. N. BORT NOW A HOTEL-OWNER

Dry Goods Man Heads a Syndicate That Purchases the Holland

The Hotel Holland, at Fifty-third St. and Lake Ave. Chicago has been bought by a syndicate of which A. N. Bort, the Beloit dry goods man, is at the head. The sale was made on the basis of \$170,000 for the hotel building and \$20,000 for furnishings. C. B. and E. B. Waite, former proprietors, received several ranches in Colorado as part payment.

Free Lecture to Mothers and Daughters.

Mrs. Marion Hunt will lecture at All Souls church June 20th at 3 o'clock p. m. Subject: "Woman—Past, Present, and Future." The lecture is not in the interests of woman's suffrage, but treats of the higher, holier duties of women. Illustrations will be used teaching women how to guard her own and her daughter's health, to preserve and increase beauty. Young ladies especially invited. A large attendance is expected. Come early and bring your friends.

Sure Death to Insects.

Dead Stuck, for sale at Grubb Bros. is a sure exterminator for all ants, roaches, bed bugs and other bothersome insects. All you have to do is to sprinkle it where the insect generally travels, or near his resting place. He or she will at once advance from their retreat, partake of the extinguisher, curl up, and die. It is the best medicine ever in Janesville. Nobody will be bothered if they will use it; will kill instantly. Very cheap.

REV. C. B. WILCOX IS NOW D. D.

Former Janesville Pastor Honored By Hamline University

Rev. C. B. Wilcox, formerly of Court Street Methodist church, has lately been the recipient of many tokens of recognition of his worth and talents. The trustees of Hamline university, Minnesota, gave him at the last commencement the degree of D. D., and what is more to the point it was a complete surprise. Such men as President Bridgman, Elder Chaffee and Bishop Fowler put up the job on him. He recently delivered the commencement address at the graduating exercises of the Sauk Center high school, and, as one auditor said, "he captured the town." And now, the Lawrence university, at Appleton, Wis., has engaged him to deliver the commencement address, which takes the place of the usual graduating essays by the students in many colleges in recent years.

The St. Paul Dispatch remarks: "In the meantime, besides giving very many addresses before Christian Endeavor and temperance societies, he is preaching very ably not philosophy nor politics, but the gospel."

Dr. Wilcox is freely mentioned as a possibility for president of Lawrence University.

ARRESTED A HELPLESS WOMAN.

Deaf and Dumb She Wandered About Green County All Night.

A deaf and dumb woman was thrown from a buggy near Brodhead, and wandered around all night in a vain effort to locate herself. She got to Monticello and was picked up for an insane woman and was thrown in jail for the safety of the community. Her arms were bruised from being thrown from the buggy, they were tanned by the sun and her hands were calloused by hard labor, and the treatment of the officers badly frightened her.

PENNILESS MAN'S LONG JOURNEY.

Father and Two Sons Come From the East Without Money.

A father and two sons, who had journeyed all the way from Pennsylvania without a cent of funds, were in this city Saturday night. The wife and mother died some time ago, and they broke up housekeeping to join relations at Madison. They got off the road and reached Monroe but were sent here by citizens who raised a small purse.

Buy Your Lot and Get a Free Ride.

Next Friday night the great excursion to Columbia will take place via the Chicago & Northwestern Railway. The special excursion train will leave here at 11 p. m. Friday night, arriving there Saturday morning. A grand time is anticipated. Over 100 people have already agreed to go, and inquiries are coming in thick and fast. It will be one of the largest excursions that ever left Janesville. The object of the excursion is to prove to all that Columbia is one of the most desirable towns in the state in which to locate, and that land in Clark county, Wis., is all that it is claimed to be. All those desiring to go must make arrangements on or before six o'clock Thursday evening in order that suitable traveling accommodations may be secured.

An Error Corrected.

A few evenings ago The Gazette stated that Ziegler had 2000 hat boxes carted away and burned. It should have been 4000 boxes instead of 2000. There is no wish to do Mr. Ziegler an injustice and this correction is willingly made. All "estimators" can now double their figures.

The Skeptic Lost Her Job

If there was a "doubting Thomas" in the city today as to who was doing the dry goods business, we wish that person had tried to get inside our store—twenty-five cent French gingham and Toile du Nord at 8½ cents a yard set everybody to thinking. One more day. BORT, BAILEY & Co.

SCOUR THE MARKET
FOR JUNE DAINTIES.JANESVILLE BERRIES VERY
SCARCE THIS YEAR.

Local Grocers Expect an Advance in Flour and Sugar Before Long—Lemons on the Rise—Eggs Have Been Higher the Last Few Days—No Change in Butter.

The only new delicacy that has appeared in the Janesville market in the last few days is the California apricot, which is to be found in a few of the stores. The fruit sells at 50 cents a box. California cherries command 15 to 20 cents a pound.

The orange season is about over, but a few Californias are still coming in and are selling at 30 cents a dozen. They come in barrels nowadays, packed, instead of in small boxes. It costs less to handle them so and cold storage makes it possible.

Points on Popular Fruits

Pineapples, which have been remarkably plentiful, have suddenly become scarce, but the price has not changed. They can still be had at from 15 to 25 cents, according to size. Lemons have gone up, and are now selling as high as 25 and 35 cents per dozen. They have sold as low as 15 cents.

The grocers are having great difficulty in getting strawberries enough to supply the demands of their customers. The Wisconsin crop is coming in, but in small quantities. Wisconsin and Michigan berries are selling for 12½ to 15 cents per box.

Peas and Asparagus.

Wisconsin peas are coming in, but the price is still 35 cents per peck. New potatoes have grown very much cheaper during the week. They can be had now for \$1.25 per bushel, which is not much more than old potatoes are commanding.

The warm weather has had the effect of making asparagus very plentiful. Fine stock can be had at five cents per bunch. Cucumbers have fallen until they are now worth only 2½ cents each. Homegrown cauliflower flowers are selling at 15 cents.

Rise in Sugar and Flour.

Fresh eggs have jumped up during the week. They were 10 cents a dozen not long ago and now they are 12½ cents. There has been no change in the price of butter for two weeks.

The wholesale price of sugar has risen again during the week, which makes the second rise this month. It has not affected the retail price as yet, but if it goes much higher it will. The grocers are expecting an advance in the price of flour.

END OF CONSPIRACY.

Husband and Wife, Become One and the Offense Is No Longer Possible.

COUNCIL BLUFFS, Iowa, June 18.—The case of Mr. and Mrs. Metzger, on trial here on a charge of conspiracy to defraud Dr. Wilhelm, ended Saturday by the court's decision on a unique point of law raised by the defense. One person, of course, can not be guilty of conspiracy. The defense argued that Mr. and Mrs. Metzger are husband and wife and held in law to be one person, consequently it is impossible for them to commit conspiracy. The court sustained the defense and the prisoners were discharged.

Gogebic Range Miners to Strike.

IRONWOOD, Mich., June 18.—The miners on the Gogebic range decided to strike to-day. The companies refuse to negotiate with committees from the unions, but are willing to hear their workmen individually as to their grievances. Should all the miners strike 3,000 men will be affected. The mine owners threaten in case of a general walkout to close down their properties indefinitely. The workmen demand an increase in pay.

Walter Brass.

Mr. and Mrs. Theodore Brass, of Rockford, Ill., mourn the loss of their infant child, Walter, who died last Saturday morning, and whose mortal remains were brought here for interment. The same took place in Oak Hill cemetery in the afternoon, Rev. C. J. Koerner officiating.

William Walter Phelps Dead.

ENGLEWOOD, N. J., June 18.—Wm. Walter Phelps died yesterday morning at 1:45 o'clock at his summer residence, Tea Neck grange, near Englewood. He had been unconscious for some time and the end was painless.

SMITH'S PHARMACY.

A Wild, Weird Cavern.

Much has been written of the Mammoth Cave, Kentucky, and yet the stories of its picturesque beauty, its enchanting domes and rock-strewn avenues have but half been told. But few there are acquainted with its interior. Among other sights of interest which there abound is a village of rud huts built in the years gone by. These were erected by a colony of consumptives, who thought that the even temperature (60 degrees Fahrenheit) of the cave would cure their disease. The damp air, however, proved fatal and hastened the death of all. Earlier in years had they taken Dr. McChesney's Catarrh Cure there is no doubt but they would have lived to a ripe old age. \$200 reward for any case of catarrh which this remedy will not cure. Don't experiment with inferior medicines. For sale by all drugstores.

HARPER'S HISTORY OF THE WAR

Harper's Pictorial History is universally recognized as the best history of the war yet published. This superb work has never been sold for less than \$16 to \$30. It has been sold only by subscription and but a very few men have been able to buy it.

The pages are the same size as Harper's Weekly and the work contains all the illustrations appearing in that great paper during the war. The work was edited by Richard Grant White and Henry M. Alden and is authentic, complete and reliable.

We have made arrangements whereby we can furnish Gazette subscribers with this splendid history of twenty-six parts at ten cents a part. These twenty-six parts will contain over one thousand war pictures and will make two handsome volumes when bound.

Many official documents of priceless historic value are quoted in full in the copious foot notes, such for instance as Lincoln's inauguration speeches, articles of federation of the early states, constitution of the United States, ordinance of secession, and many important papers, speeches, etc. The war story is consecutive and very fascinating. The introductory chapters, leading up to the struggle, and the chapter on the reconstruction period, are by some of the first writers of the age.

That oily and rough skin cured and the face and hands beautified by John son's Oriental soap; medicated and highly perfumed. Sold at Smith's Pharmacy.

A YOUNG GIRL'S LIFE.

SOME INTERESTING FACTS.

The Story is the Same, No Matter What Her Station in Life May Be.

[SPECIAL TO OUR LADY READERS.]

No matter whether she walks to her daily toll or rides in her carriage in the park. No matter whether she is one of the millions or one of the few thousands.

Whatever her station in life may be, she is subject to the same physical laws, and suffers in proportion to their violation.

Girls' over-sensitiveness and modesty often puzzle their mothers and baffle the physician. They withhold what ought to be told.

Thousands have found health and comfort through the counsel of Mrs. Pinkham. If you are sick, write her at Lynn, Mass.

Lydia E. Pinkham's Vegetable Compound saves the young girl from the danger resulting from organic disturbance, such as suppression or retention of menses or irregularity. It cures displacement of the womb and all forms of disease arising from derangement of the organs. It is a remedy for woman, given by a woman.

What will cure the mother will cure the daughter, as their organism is the same, and governed by the same laws.

That Shaw

Will become the property of some popular young lady within the next four weeks.

We do not dare to predict who will get it, but a "dark horse" is talked of and the ballots will come in with a rush within the next three weeks, therefore those interested want to redouble their energies so that their particular favorite will not be behind in this popular contest.

A Word About the Shaw Piano

The first pianos made by the company were placed on the market less than five years ago. Instantly the trade recognized their merits and put in bids for territory until at this time these instruments can be seen almost everywhere. To be able to build such a good business in so short a time there must be great policy behind the house. The policy of the Shaw Piano Company, is first to build a good instrument, second, to advertise it largely and artistically. The first part of the policy, to build a good instrument, is amply testified to by the favor they have met with both from dealer and artist. The Shaw Piano is strictly a high grade first-class instrument, one that the purchasing public can have every confidence in. Messrs. S. C. Burnham & Co., of our city have for years been representing other first-class pianos but have been won by the construction, tone and quality of this new aspirant for honors so that today they are bending all their energies in favor of the Matchless Shaw, as it is termed. With no remorse of conscience they claim it is the finest musical instrument in the piano line they have ever represented.

Judging from the above account of this wonderful piano is it any wonder that the contest now going on is attracting universal attention. Rally round your favorite lady, boys. See that she becomes the happy possessor of a SHAW.
